The Hive 10 CABs Kit

WE PURCHASE ALL HONEY AND OTHER BEE PRODUCTS FROM ALL OUR CLIENTS!

WHY this CAB Hive for the African Bee?

The CAB Hive type of improved Langstroth for the African Bee. This hive has been designed perfect for the smaller and aggressive African Bee and is easy to operate and manage. It has:

- High Quality seasoned hard wood - more than 20 years life span.
- Very stable to different types of weather i.e hot, humid etc.
- Yields of up to 10kgs per harvest from 1 CAB Hive.

Components Of The Hive 10 CABs Kit

10 CAB Hives

The most modern bee hive design for the African Bee. The Cab Hive Produces at least 10-12kgs of honey on a minimum of 6 times a year. Very long lasting (up to 20yrs) and of high quality and well seasoned timber (13% wood moisture content)

1 Uncapping Fork

Effective bended and sharp tipped, removing the comb caps without damaging the comb.

2 pairs Hand Gloves

Made of goat skin and very flexible to use.

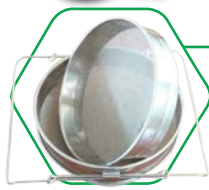

1 Bee Brush

Soft thistles and easy to clean. Clears bees from the comb without making them aggressive.

1 Hive Brand Smoker

Effective smoker that burns for a long period of time preserving fuel. Stainless steel smoker with heat guard and easily fitted with a furnace to reduce heat. Well engineered nozzle to guide your smoke with perfect accuracy

1 Double Strainer/sieve

Made of stainless steel and very long lasting. It has adjustable handle for different bucket sizes

1 Hive Tool

Strong and long lasting, quite friendly to the hive frames and very effective propolis cleaning hook.

2 set of Bee Keepers Protective Suit

Offering you maximum protection from bee stings. Comfortable and keeps you cool as you work with bees.

1 Honey Extractor

(The Hive Brand of Quality)
Made of stainless steel hence easy to clean, dry and store.

Practical Training (2 people)

You will be taken to the Hive farms for a whole day of practical interaction with bees right from preparation and treatment of the hives, swarm catching, transfer, inspection, honey harvesting, processing and packaging.
